Dear Families & Community Partners,

We hope you all had a great summer and start to the school year!

The PCL team is excited to share that we have enrolled 78 families in this phase of our bilingualism research study. We are grateful to you for being a part of this study, sharing your experiences with other families, and supporting our recruitment efforts!

Currently, we are continuing our work studying the potential impacts of bilingualism on coping and mental health in Latino and Hispanic youth. Additionally, during the current phase of our study, we are still contacting new families about participating throughout the rest of 2018. We are working hard to enroll 100 families by the end of the year.

Wishing you all the best!

Study Recruitment at KIPP Beacon Prep & College Prep

At the start of the school year, Gabriela, Juliana and Joseph had the opportunity to visit one of our partner schools: KIPP Beacon Prep. We have had great success recruiting at both College Prep and Beacon Prep, where we were able to talk to many new families and catch up with families who were already enrolled. In fact, some of you reading this newsletter decided to participate at this event! We would like to thank Genevieve Cheng and Lisa Rodgers, the Assistant Principals of Operations, for giving us the opportunity to meet more families and share information about our study. We are very grateful for our relationship with schools like KIPP and we hope you are all having a wonderful school year so far.

Meet Cinthia!

Cinthia is a 1st year graduate student and was born and raised in Eagle Pass, Texas. She graduated from the University of California in Los Angeles with a Bachelor’s degree in Psychology and an emphasis on Applied Developmental Psychology and Education Studies. She enjoys reading, painting, traveling to new places, and trying new foods.
